## WENTWORTH ICE HOUSE DESTROYED BY FIRE

### Building Set On Fire Sunday Afternoon--Fire Apparatus Have Long Haul.

The large ice house of the Wentworth Hotel company, on the Wentworth road, was destroyed by fire on Sunday afternoon, involving a loss of over \$3,000. The fire is of a mysterious origin and Chief Randall is of the opinion that it was set.

The fire was discovered shortly after three o'clock by people passing in an automobile and it was then located in the easterly end of the building, near the roof. It spread very rapidly and by the time an alarm sounded from the nearest box which was 86 at the corner of Little Harbor and Sasamore road, it was well under way and the building beyond saving.

The Combination wagon was allowed to go to the fire, but the central fire apparatus was turned back from South street and the Sise company continued on. The roof was burned off by the time the engine arrived and the flames were rapidly burning away the sides of the building. The house was filled with ice estimated at 1800 tons and the department saved the greater part of this. The engine was hooked up to draw from the ice pond and a stream was playing on the building in a short time after the apparatus arrived.

The ice is greatly damaged, but outside of the top and outside layers it will be good for storage purposes.

Mr. Campbell, the caretaker of

## PASSENGERS RESCUED FROM THE ONTARIO

### Steamer Takes Fire Off Montauk Point Early This Morning

Shortly after two o'clock this morning the steamship Ontario of the Merchant and Miners Line took fire at sea and was beached half mile west of Montauk Point, L. I.

The crew were unable to control the fire and orders were given to beach the vessel. The Ontario had a passenger list of 90 people and a large cargo. The tug Pasco of Newport took the passengers off with no injury of loss of life. The revenue cutter Aquinas is standing by.

## PORTSMOUTH MAN ROBBED IN BOSTON OF HIS ROLL

### Charles Morse Loses \$62 to a Marine

Saturday evening's Boston Globe contained the following experience of a Portsmouth man in the Hub:

Charles Morse of 182 Market street Portsmouth, N. H., has long been an admirer of United States Marines, so last night when a young man in the uniform met Morse in the West End and asked him to buy a ticket to the "benefit" Morse was agreeable.

Morse made many purchases in the cafes and finally the couple went to an alley off Merrimac square, where the stranger showed the ticket to Morse, who at once pulled out his roll of money.

The stranger snatched the roll and ran away. Morse gave chase and others joined him, but the man escaped with \$62 according to Morse. He reported the case at the Joy street Station and he was sent to the Hanover street Station. Lieut. Crowley sent out detectives to search for the man. The police suspect he was not a Marine at all, but a thief who only donned the uniform to impose on people.

## PASTORS BEGIN CRUSADE AGAINST SUNDAY DANCING

### Fr. Thomas Reiley of Dover Takes Same Attitude as Rev. Fr. Walsh of this City

The Dover News of Saturday contained the following which will be of interest to our people:

The ministers of Dover have decided to organize a crusade against Sunday dancing in Portsmouth and other places.

They have talked the matter over at several conferences and last evening at the 7 o'clock service in St. Mary's church, Rev. Fr. Thomas E. Reiley, the pastor, in fervid language denounced the pastime and warned his young parishioners against it.

Mr. Reiley was plainly much concerned in the subject of his talk and his plain statements have created quite a stir of popular interest. The fifth of his remarks was as follows: "I understand from pastors of Portsmouth and ministers of this city that our girls have been going to Portsmouth Sundays and have been spending the afternoons in dancing at the Navy Yard.

"I notify you that such actions are directly against the rules of the church. Sunday is a feast day and one that should be kept sacred and unviolated.

The custom as it is practiced at Portsmouth is becoming a general scandal. Not only is dancing against the laws of the church, but as I understand it, also contrary to the regulations of the city, and state and nation. I am very much surprised that the authorities should allow such conditions to exist.

"We shall also investigate Saturday night dances. I have understood that such affairs have continued into the Sabbath day and, if that is true we shall take action against such week-end parties.

Such dances are not right; they

are morally degrading, are becoming the source of general scandalous talks, and I want to notify you that to attend them is against the rules of the church."

Considerable discussion has been created about by Fr. Reiley's words, indicating that the Dover clergy are in sympathy with him. Much comment seems to be of a favorable nature, praising his attitude in taking a firm stand against a practice that would tend towards immorality and looseness of morals.

Rev. Fr. Walsh of the Church of the Immaculate Conception, Portsmouth has taken up the matter of Sunday dancing, speaking to his parishioners regarding its effect and the wrong.

Dancing is not carried on at the Navy Yard in secret. The fact that this form of diversion is allowed there Sunday afternoons and into the early evening is generally known and the large number of young people of both sexes who patronize the affair generally are visitors from Portsmouth, Dover, Somersworth, South Berwick and Rochester.

The dances are held on different battleships stationed at the Portsmouth yard, and usually continue from 3 o'clock in the afternoon to 9 o'clock in the evening.

Saturday night dances are held during the winter season in the various cities and towns, and in the summer season at the parks in this vicinity.

The clergy of Dover and Portsmouth are united in the decision to investigate and take whatever action is possible against what they regard as an evil in allowing the affairs to occur on the Sabbath day.

## EASTER FESTIVAL OBSERVED WITH FINE PROGRAMS

### Large Congregations the Rule--The Weather Good For Easter Display.

Easter Sunday was a big day for the churches here and without any exception there were large congregations present at all of the services. In all cases the regular services were elaborated on, with special music and sermons pertaining to the day and in most cases the churches were in gala attire.

The weather was threatening in the early morning with a heavy fog hanging over the city but it brightened up and finally burned off in the middle of the forenoon. The weather was good for the Easter bonnets and like the men in the congregation there were many new ones out.

#### Unitarian Church.

Special music was rendered at the morning service, with a timely sermon by the pastor, Rev. Alfred Gooding.

In the evening a special service was held, which filled the church.

## TWO VERMONT CITIES HARD HIT BY FLOOD

### Montpelier and Barre Suffer Losses Estimated at \$125,000

Montpelier, Vt., April 7--Damage estimated at not less than \$100,000 has already been caused in this city by flood and the waters are still rising.

Tonight Main street in the heart of the business district, was a river of racing waters several feet deep. State street also is flooded.

The Montpelier & Wells River railroad tracks for a half mile above the state are under water and the

night train service to Barre was cancelled.

Barre is believed to be no better off as the floods struck that city first. As the cellar of the Western Union Telegraph company here was flooded tonight, however, wire communication with the neighboring city is difficult.

The loss in Barre is estimated to

## EXETER LETTER

### Many Interesting Items from the Academy Town.

Easter Sunday, all of the churches put forth their most attractive programs, both in the way of preaching and special music. At the Unitarian the special features were prelude, organ and cello, by Theodore Tufts and William C. Greene and vocal solos by Mrs. Thying, also vocal renditions by Mrs. Joseph Knapp and A. H. Vroom. The Easter sermon was by the pastor, the Rev. Edward Green.

At the Christ church the anniversary of the resurrection was observed at 10:30 o'clock, also an observance at 7 o'clock and a late one at 4 1/2 p. m. The music was also a special and attractive feature. At St. Michael's church there were four masses, one at 7, 8, 9, and 10:30 o'clock. At the First and Second Congregational churches the sermon and music were pleasing and the attendance large.

Samuel J. Elder of Boston who is to speak at the meeting of the Young Men's League in the rally at the town hall, Tuesday evening, comes to Exeter with the reputation of being one of the best speakers in this section of the country. He is a classmate of President Taft at Yale and was prominently mentioned for the presidency.

An interesting part of the rally will be stereoscopic views of President Taft showing his trip to California and also him laying the corner stone of the San Francisco 1915 Exposition. The other speaker is to be Edwin G. Eastman former attorney General of New Hampshire.

PREACHED AT CAPE NEDDICK.

## REV. MR. EMMONS

### RESIGNS HIS PASTORATE

Rev. Charles H. Emmons, pastor of the Universalist church has tendered his resignation to take effect on June 30th. During his pastorate of several years in this city, Mr. Emmons has made many friends both in and out of his parish who will regret that he is to leave the city. To a Herald representative he stated that he had no plans for the future, other than to take a much needed rest during the summer months in the neighborhood of Elliot. It is to be hoped that with the passing of the summer vacation that his health will be restored.

# CHARGED WITH SELLING LIQUOR AND GAMBLING

Joseph Peto, an Italian, was arrested early Sunday morning on a warrant charging him with keeping for sale liquor and for maintaining a gambling joint.

He was arrested with six other Italians at two o'clock Sunday morning from a house on Green street, by Officers Carlton, Philbrick, Dorethy, Ducker and Murphy, who raided the place. The six Italians were found gambling and the following liquors were seized, four kegs of beer, six cases of beer and a jug of whiskey.

An hour later the police raided the house of Joseph Ravarlo on the same street and found him filling beer bottles from a keg. He was charged with keeping for sale liquor.

Comparatively little ice is being carried by the water, which is the main reason that the loss thus far has been confined to water damage.

## WANT BONDSMEN TO SETTLE

Portland, Me., April 7.—Although Rev. Frank W. Sanford, the Holy Ghost leader, is serving a 10-year sentence in the Federal Penitentiary at Atlanta, Ga., yet a civil suit for \$5000 pending against him in the Supreme Court of Maine will be called for trial next week.

Unless Mr. Sanford appears to answer it, which of course he can not, James A. Connell, attorney for Mrs. Florence N. Whitaker of this city, the plaintiff, will ask for the surrender of Sanford's bondsman, H. E. Coolidge, William S. Wake-man and Samuel Sylvester, all of Lisbon Falls.

Mrs. Whitaker alleges that, three years ago she was illegally detained with her four children aboard the former Holy Ghost barkentine Kingdom. It was not until the yacht Comet arrived in port Oct. 21 last, however, that officers were able to get Sanford. He was then arrested on this civil action and gave \$10,000 bonds, or double the amount sued for.

Later Sanford was arrested by Federal officers and Dec. 18 sentenced to 10 years. Attorney Connell will urge that his client has a prior claim to the Government's.

## LIKE STROKE OF LIGHTNING

Veteran Soldier Tells How Wound Affects Fighter on the Field of Battle.

General Miles in his book, "Serving the Republic," says that, like every other soldier who has seen much active service, he is often asked how it feels to be wounded. He himself was wounded four times, and twice almost fatally, so he is able to speak from experience. He says: "One is often asked how it seems to be wounded in battle. The flight of a bullet is quicker than thought, and has passed through a flesh wound before one realizes that he has been struck. I have seen bodies of men dead on the field of battle where the brain had been pierced and death had been instantaneous. They would remain in every position of the manual of arms, with an anxious look, a frown or a smile on their cold and rigid faces. My wounds received at Fair Oaks, Fredericksburg and Petersburg were flesh wounds, and disabled me but a short time. While riding down the line at Chancellorsville one of the enemy's bullets struck my metallic belt plate with great force. This caused a slight deviation as it entered the body. The result was an instant deadly sickening sensation; my sword dropped from my right hand, my scabbard and belt dropped to the left; I was completely paralyzed below the waist. My horse seemed to realize what had occurred; he stopped, turned and waited slowly back—I holding to the pomel of the saddle with my hands. We soon reached a group of soldiers, who took me off and, placing me in a blanket, carried me to the Chancellorsville House, and pulled a dead man off a couch to make room for me."

## MOSE NOT HARD TO SATISFY

As Far as Prisoner Was Concerned, He Was Willing to Let the Matter Drop.

Bozeman Bulger, a baseball writer, says that in his home town, down in Southern Alabama, a negro was brought into court to answer a charge of murder.

"Mose Tupper," said the judge, contemplating the prisoner over his spectacles, "you are accused here of one of the most serious crimes known to our laws—how, the taking of a human life. Are you properly represented by counsel?"

"No, suh," said the darky cheerfully.

"Well, have you talked to any one about your defense since your arrest?"

"I told the sheriff about the shoot in' when he come to my cabin to fetch me heah," said the prisoner—"but that's all."

"And have you taken no steps what ever to engage a lawyer?"

"No, suh," said Mose. "I ain't got no money to be wastin' on lawyers. Dey tell me lawyers is mighty cos' tive."

"If you have no funds," insisted the judge, "it lies within the power of the court to appoint an attorney to defend you without charge."

"You needn't be botherin' yo'self," answered Mose.

"Well, what do you propose to do about this case?" demanded his honor.

"Jedge," said the negro, "ez fur ez Ise concerned you kin jes' let de matter drap!"—Saturday Evening Post.

## Why He Was Not Guilty.

"Little X," says a writer in the Army and Navy Journal, "was one of the most popular of our young officers in the army maneuvers at during 1910. He had served in the cavalry and had brought with him the cavalry swagger, wore his campaign hat turned up in front and rear, and is said to have slept in his spurs. Our lieutenant colonel, whose treatment of younger officers had made him most unpopular, was then in command of the regiment.

"One day Little X passed the Colonel's tent while the old man was standing out in front looking for trouble. He spotted X and sent his order by him. 'Mister X,' said the colonel as Johnny saluted and brought his heels together with the approved click. 'Mister X, you appear to have a touch of the outre about you. 'Why colonel,' said X, 'you must be mistaken; I haven't had a drink since I came to camp.'"

## Laying Something by for Future.

The general prosperity can only be a reflection of the prosperity of the individual, and no individual is really prosperous who is not laying aside something for the future. The man who makes \$10,000 per year and spends \$10,000 is poorer than the man who makes \$1,000 and spends but \$900. It may be hard to walk while your neighbor whisks by in an automobile, but it is the man who has the courage and character to live well within his means who accumulates enough capital to do things in the world.—Indianapolis Star.

## His Life Work.

Is this an artist? Yes, that is what he calls himself.  
Is his studio beautiful? It is.  
Where did he get the money with which to buy beautiful things? From a rich uncle who died.  
Does the artist hold lovely afternoon receptions? He does.  
What is he painting? A picture.  
How long has he been painting the picture? About seven years.  
Will he ever finish it? NO!—Puck.

## FINE OLD MEMORIAL TOWER

On Town Bridge at Milford, Conn., It Records the Colonial History of the Place.

The town bridge at Milford, Conn., is a unique memorial of the colonial history of the place. Milford was first settled by colonists from the old English town of the same name, and the bridge, which was built to celebrate the town birthday, is an exact replica of an ancient one in the Milford over the sea. Every stone in the round tower is a memorial to some historic Milfordite. Over the massive door is the sculptured head of an Indian, supposed to be Anasatawa, the chief who sold the town site to the colonists in 1639. The knocker on the tower door once belonged to the old house where George Whitfield preached in 1774. The doorstep is from the mansion of Robert Treat, governor of the colony of Connecticut for thirty years. One stone is dedicated to the memory of Jonathan Law, a governor from 1742 to 1750. This stone also once formed part of the governor's threshold. Another large slab is inscribed with a tribute to the Wepawany Indians. On the bridge corner by the tower the town perpetuates in granite its gratitude to "Captain Thomas Tibbals (obit. 1708), in consideration of his helpfulness to show to first comers the place and the land records." Another tablet records the name of Peter Prudden, first pastor back in 1650. Several big blocks of masonry are inscribed with the names of the early settlers, and there is one stone bearing Milford's good opinion of itself in these words: "God sifted a whole nation that he might send choice grain to the wilderness."

## ACTED AS A WET BLANKET

Indignant Lady's Resouke Sounded Somewhat Incongruous, but Playgoers Will Understand.

It was a sweet, sad play, and there was hardly a dry handkerchief in the house. But one man in the gallery, "among the gods," irritated his companions excessively by refusing to take the performance in the proper spirit. Instead of weeping, he laughed. While others were mopping their eyes and endeavoring to stifle their sobs his own eyes brimmed with merriment, and he burst into inappropriate guffaws. At last the lady by his side turned upon him indignantly.

"I d-d-don't know what brought you here," she cooed, with streaming eyes, and pressing her hand against her aching heart; "but if y-you don't like the p-play, you might let other p-people enjoy it!"

## Raising Water With Air.

As all schoolboys know, a suction pump can theoretically elevate water only about thirty-three and one-third feet, a column of water of that height balancing the atmospheric pressure. A means has, however, been found of causing a suction pump to raise water to a height of even sixty feet. The invention was made by a workman in the French marine. Monsieur Eysserie, the chief engineer of the machine, remarked that one particular pump showed extraordinary qualities in drawing water from ships' holds. Inquiry developed the fact, says Harper's Weekly, that a workman had thought of the plan of introducing air into the water at the point where the suction was applied, thus producing an emulsion of air and water, which, because of its diminished density, was capable of being elevated to considerably greater heights than pure water.

## Her Feats of Memory.

"I have heard and read of wonderful feats of memory," said Mrs. A. H. Brown of this city, "but not one of them was so remarkable as those exhibited by my own mother at 93, the age at which she recently died in Clyde, N. Y. That was her home for 65 years; but she was born in Phelps, N. Y.

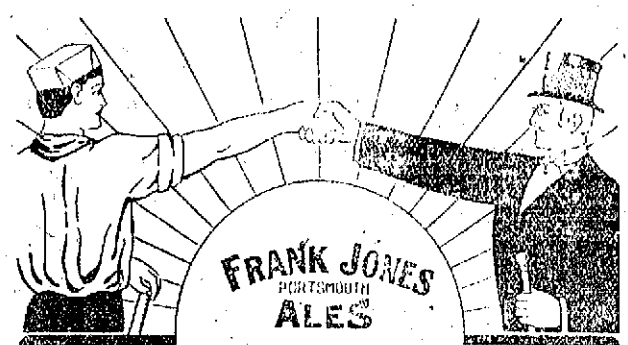

"She was an ardent reader of the Scriptures and, having an exceptionally clear, vigorous mind, she was able, at even that advanced age, to repeat word for word the entire Gospels of St. Matthew, St. Mark, St. Luke and St. John. In addition she could recite lengthy passages from books of favorite authors, and many poems, including epics and extended lyrics. My mother was also a good Latin scholar. She had seven daughters, of whom six, including myself, survive, as do sixteen great-grandchildren and twenty-one grandchildren."

## The Real Thing.

"I s'pose," remarked the landlord of the tavern, "that Dave Splann is what you'd call a man-about town? He once short-changed a circus ticket seller; and another time he took out to supper two soubrettes that had been doing refined song and dance, interspersed with tumbling, at Hefty Mitchell's Oh-You-Kid moving picture theater; and throwed an oyster stew right into an electric fan, just to show that he didn't care for expense. Aw, Dave's a reg'lar rounder, if there ever was one!"—Puck.

## FISHING SCHOONER ASHORE AT THE SHOALS

The fishing schooner Viator, Captain J. J. Davis of Gloucester, went ashore on the western end of Lunging Island at the Isles of Shoals on Saturday night. The schooner struck in a heavy fog, while trying to get in the harbor at the Shoals, at low water and remained ashore until

three o'clock when at high water she was pulled off with the assistance of the Life Saving crew from the Shoals. The schooner was not damaged to any extent, although she was on an exposed position and with any wind or sea would have been wrecked.

## ENGLISH COAL STRIKK OFFICIALLY OFF

London, April 7.—The Miners' Federation this afternoon accepted the recommendation of the executive committee that the men should resume work as the result of the recent ballot, and the miners will be ordered to return to the pits forthwith.

The decision of the Miners' Federation was reached after a 12-hour controversy, which at times was intensely embittered, the extremists charging executive pusillanimity in recommending that the men resume work before the district boards had yielded to the miners' schedule of minimum wages.

The moderates, however, finally carried the day. Some of the firebrands had to acknowledge that, with double that number ready to resume work on Monday, it would be hopeless to attempt to carry on the war.

The resolution accepting the recommendation of the executive committee was carried by a vote of 440 to 125.

The funds of the miners' unions have decreased by \$5,029,900 since the strike began, leaving only \$3,941,250 in their possession, and this amount is for the most part in the hands of the unions belonging to only one or two districts.

### SCORES SUNDAY DANCES.

Rev. Fr. Reilly of Dover Speaks Particularly of Entertainments on Navy Ships at Portsmouth.

Dover, N. H., April 6.—Rev. Fr. Thomas E. Reilly, P. R., of St. Mary's Catholic Church with other local clergymen has begun a crusade against young people of Dover, particularly young women, going to the Portsmouth Navy Yard to attend Sunday dances held on the ships. At Good Friday service Fr. Reilly sounded a warning. He said it was scandalous and against the rules of the church.

He also spoke with much feeling against Saturday night dances as conducted here, which he had been informed were often continued into the Sabbath. The Sunday dances at the Navy Yard are conducted openly. They are attended by young people from Dover, Somersworth, Rochester and South Berwick in large numbers, it is said. They usually begin at 3 o'clock in the afternoon and continue until 9 p. m.

### MISS HOBBS AT Y. M. C. A.

There was a very attractive program at the Y. M. C. A. on Sunday afternoon, when Miss Helen Hobbs of Boston, one of the best known readers in the country, gave a very excellent program.

Miss Hobbs had two selections, "Easter" and "The Other Wise Man," by Van Dyke, and she was exceptionally strong in both. She is a reader of remarkable dramatic ability and she made a strong impression on her audience.

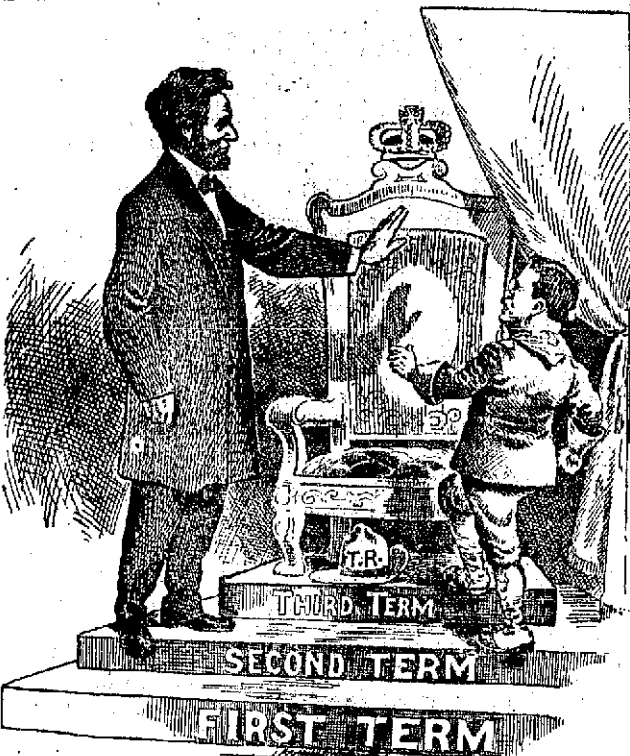

A delightful musical program was given by a male quartet, Messrs. Parker, Mitchell, Montgomery and Gray.

### CONTRACT AWARDED.

The contract for the work of erecting the gas storage tanks for the Portsmouth Gas Company has been awarded to the firm of Davis and Farnham of Waltham, Mass. They will begin work as soon as the foundation for the same is ready.

"It thrills and burns for distinction, and, if possible, it will have it. Is it unreasonable, then, to expect that some men, possessed of the loftiest genius, coupled with ambition sufficient to push it to the utmost stretch, will at sometime spring up among us? And when such a one does, it will require the people to be united with each other, attached to the government and laws, and generally intelligent, to successfully frustrate his design."

"Distinction will be his paramount object, and although he would be willing to acquire it by doing good as a means, yet nothing left in the way of holding up he would sit down badly to the task of pulling down. Here then is a probable case, highly dangerous."

## TAFT MAKES GOOD LABOR PLEDGES

Administration's Record Squares With Its Promises.

## MANY NEW LAWS ENACTED.

Postal Savings Banks, Workmen's Compensation and Employers' Liability Laws Passed—Eight Hour Law Upheld—Labor Recognized on Commissions.

From the day three years ago when it placed its interests in the keeping of William Howard Taft to this hour labor has critically scanned his every act, and with discriminating mind it is judging him as one who, without clamor or demonstration, has kept the faith. On Sept. 8, 1908, Theodore Roosevelt, then president of the United States, wrote a letter to Conrad Kohrs on the issues of the campaign and, addressing himself to the laboring men, said:

"If there is one body of men more than another whose support I feel I have a right to challenge on behalf of Secretary Taft it is the body of wage-workers of the country. A stancher friend, a fairer and truer representative they cannot find within the borders of the United States. He will do everything in his power for them except to do that which is wrong. He will do wrong for no man and therefore can be trusted by all men."

### Mr. Taft Labor's Friend.

The workmen of the country judged Mr. Taft in 1908 by a record of twenty-seven years as a statesman, administrator of national affairs and presidential adviser, and they helped to give him the magnificent majority which put him in the White House. During the three years he has been president his excellent record has been maintained so splendidly that the la-

borers have been confirmed in the belief that they never had a better friend in the White House. The establishment of the postal savings banks, which was recommended by President Taft, was one of the things that organized labor favored. The \$18,000,000 now on deposit in these depositories represents the savings of the wage earners.

### Taft's Personal Interest.

President Taft approved a law on May 30, 1908, to compensate workmen for injuries received while in the employ of the United States. After the passage of this act a number of workmen in the employ of the federal government were killed, and their families, not being familiar with the provisions of the law, failed to file affidavits within the specified time. The secretary of commerce and labor had no power to set aside the provision of the law and was therefore obliged to disapprove the claims.

The matter was taken up by the president, and he satisfied himself that justice was not being done to the families of the men who had been killed. He sent a special message to congress recommending that a general act be passed allowing all such claimants compensation if their claims were otherwise meritorious. This was an instance that proved the president to be broadminded and anxious to aid the workmen in any way that he could.

### An employers' liability act approved.

June 11, 1908, was on January 8, 1908, held to be unconstitutional. Another of this sort was passed on April 22, 1908, which as yet has not been tested in the courts. Through the efforts of the president a commission was appointed to make an investigation of the subject of "employers' liability and workmen's compensation."

### Labor Men Appointed.

The report of the commission, the evidence taken before it and the draft of the bill prepared as a result of the findings of said commission have been transmitted to congress, accompanied by a special message by President Taft, in which he recommends the passage of the proposed measure. In their deliberations the members of the commission had the benefit of frequent consultations with the president. It is believed the act will stand the test of constitutionality.

In order that the commission might have the benefit of the experience of a practical man President Taft appointed as one of its members Daniel L. Cense, the editor of the Railroad Trainmen's Journal, the official organ of the railroad trainmen. Mr. Cense has devoted the best years of his useful life to the cause of labor. The president also appointed experienced labor men as inspectors under the locomotive boiler inspection law. They were John F. Ensign of Colorado and Frank McManamy of Oregon for chief inspector and assistant chief inspector respectively.

The defects in the present eight hour law have not escaped the attention of President Taft. He has recommended to congress amendments which will make it really effective by "providing that public works shall be construed to include not only buildings and works upon public grounds, but also ships' armor and large guns when manufactured in private yards or factories."

### Thirty Years' Service.

With regard to the high cost of living, which increases the burden of the wage earners, President Taft has already taken the initiative that will result in a worldwide inquiry into this problem. He has advocated the assembling of a world's congress to discuss its varied phases and to suggest remedies.

This unparalleled record of thirty years' service to the cause of all the people is deserving of consideration. No charge of broken faith or of broken promises can be made, no hint of departure from the plain path of duty can be laid at the door of William Howard Taft, who without ostentatious display has wisely and fearlessly administered the trust imposed upon him in 1908, when he was elected to his high office by the votes of inborn men.

### ST. JOHN'S NOTES.

The infant daughter of the Rev. and Mrs. Harold M. Folsom was baptised in St. John's church on the afternoon of Maundy Thursday.

Today and tomorrow, being Monday and Tuesday in Easter week there will be a celebration of the Holy Communion in the church at 10:30 a. m., and evening prayer and address in the chapel at 4:45 p. m.

Saturday a. m. the Defeatists defeated the Get Theres at base ball by a score of 21 to 18. The losing team was handicapped by the absence of several of their regular players.

## HOW THE TARIFF STIMULATED MANUFACTURING.

In 1860, after the Democrats had long been in control of the government, and over three-quarters of a century after its establishment, the value of manufactures was only \$1,885,81,676. The United States then took fourth place in manufacturing among the nations of the world. Notwithstanding the terrible destructive effects of the Civil War, under the protective tariff the nation took the lead in manufacturing in 1885, since which time it has greatly increased that lead. According to the British government returns the value of the manufactures of the United Kingdom in 1902 was about \$4,888,630,000 while those of the United States in 1900, excluding hand trades, was \$11,406,927,000. That clearly shows the difference between protection and free trade.

## ROOSEVELT'S INTEREST IN TAFT.

The honest wage-worker, the honest laboring man, the honest farmer, the honest mechanic or small trader, or man of small means, can feel that in a peculiar sense Mr. Taft will be his representative because of the very fact that he has the same scorn for the demagog that he has for the corruptionist, and that he would front treats of personal violence from a mob with the unquailing and lofty indifference with which he would front the bitter anger of the wealthiest and most powerful corporations. Dread though his sympathies are, there is in him not the slightest tinge of weakness. No consideration of personal interest, any more than of fear for his personal safety, could make him swerve a hair's breadth from the course which he regards as right and in the interest of the whole people.

I have naturally a peculiar interest in the success of Mr. Taft, and feeling him backed by a majority in both houses of Congress which heartily supports his policies. For the last ten years, while I have been governor of New York and president, I have been thrown into the closest intimacy with him, and he and I have on every essential stood in heartiest agreement, shoulder to shoulder. We have the same views as to what is demanded by the national interest and honor, both with in our own borders, and as regards the relations of this nation with other nations. There is no fight for decency and fair dealing which I have waged in which I have not had his heartiest and most effective sympathy and support, and the policies for which I stand are his policies as much as mine.

Theodore Roosevelt to Conrad Kohrs, 1908.

## AN OVER-PROTECTED INDUSTRY

(From the Protectionist.)

In 1860, slavery, the over-protected industry, declared that if the country elected a president without its approval, the Union should not be preserved. The war ended disastrously for slavery and its supporters. Forty-five years after its close there are still men who praise "the Lost Cause," and complain that Northern industry is over-protected. Everyone of them knows that slavery received more protection from the government than any dozen Northern industries. It never got enough, the daughters of the horse leech were always crying, "Give more." Its champions were overhauling the mails or suppressing news, or mobbing somebody, or making themselves conspicuous in some way. The

Constitution balked at the word "slave," but the champions of slavery never balked at the Constitution; they used or misused it, strained it or violated it as they chose.

## AMONG OUR EXCHANGES.

Tree Planting in Boston.

A comprehensive statement has been made of what is about to be done in the way of provision for city tree planting, a municipal interest that has been too long neglected, especially along our residential streets and boulevards. While an appropriation of \$25,000 is not a large sum for its purpose, it will make a good beginning if wisely applied and regularly followed up. Half of the amount is for maintenance of trees already in the ground and the remainder for the extension of arboreal development, the sections contemplated as present beneficiaries being along Tremont street and Columbus and Huntington avenues. # FIFTY YEARS AGO TODAY

## Gleanings From Files of Portsmouth Chronicle

A dispatch from St. Johns, N. B., Monday, states that the coast is completely jammed with ice. Many foreign vessels close by cannot get in, and their crews are in a starving condition. About fifteen sealing vessels are known to have been crushed. Their voyages have been most disastrous. The screw sealing steamers from Scotland have also proved a total failure.

Capt. Ericsson has completed arrangements with the Navy Department for the immediate construction of six vessels on the plan of the Monitor, with such improvements as experience may suggest. The work will be pressed to completion with all possible speed. The revolving murets of the new Monitors are to have a thickness of eleven inches.

The order for the suspension of recruiting for the army is believed to refer to the volunteer force only.

a city tree growths. The Arnold Arboretum as a world-wide fame for its wealth and comprehensive variety of its tree and shrub life, and it might be supposed that with such an example municipal activity would have been stimulated along the line of tree extension throughout the city. The need is now being practically recognized, and though years must elapse before results will be very conspicuous, it is something to be thankful for that we are on the right track. We are not imposing any permanent burden upon the city to the extent of the comparatively small amount that is to be provided, because trees add to the assessable value of real estate, and we are really making an investment that will return good interest even in dollars and cents.—Boston Transcript.

## Boiling.

Boiling is not the question. Maybe Mr. Roosevelt will support the ticket of Mr. Taft is nominated at Chicago. Maybe Mr. Bryan will accept Gov. Harmon if the latter is nominated at Baltimore. The question is, what will their support be worth if they continue their present tactics until the two conventions meet, and Taft and Harmon, respectively, are named.

Mr. Roosevelt—not a great power at that time, but still an interesting young man—did not bolt Mr. Blaine in 1884, but he had advised so strongly against the nomination that his support was of no force after it was made. Part of Mr. Blaine's weakness in New York in the race against Mr. Cleveland was due to what the anti-Bryan republicans of the state had said against him prior to the nomination. Many of them, as did Mr. Roosevelt, voted for him, but could not recall the ammunition they had prepared for the enemy.

Mr. Bryan did not bolt Judge Parker in 1904, but he could not recall if the campaign opened what he had said respecting the influence behind Judge Parker. He had warned the party against the New Yorker's candidacy, on the allegation that Wall street was in the game as a Parkwright. And when Judge Parker interpreted by his telegram to St. Louis the financial plank of the platform according to the Wall street notion, Mr. Bryan's words appeared to be good. So that Mr. Bryan's individual support of the ticket carried no weight. Great numbers of his admirers would not follow him to the polls.

Mr. Gorman did not bolt Mr. Bryan in 1896, but could not carry Maryland for him. His views were too pronounced and too well known to make it mere personal acceptance of the nomination of any value to the ticket. And the same was true of David B. Hill and New York turned Mr. Bryan down unmercifully. Mr. Gorman and Mr. Hill meant no more than to be "regular" for future effect on their own personal fortunes.

So now, Mr. Roosevelt is daily reading shells for the Democratic party against Mr. Taft, and Mr. Bryan for the republican party against Gov. Harmon. The ammunition is being carefully stored. Mr. Roosevelt is guilty of the greater "cleanness," because the chances now appear to be nine in ten that his ammunition will be used. But Mr. Bryan is not musing matters. He would, probably be just as active and outspoken if Gov. Harmon were in the

At the Portsmouth Navy Yard no money has been received to make payments for February and March, and many workmen, especially those discontinued at the banks, or on the tained here at a distance from their homes, have become very impatient. Of course this is no fault of the officers of the Yard, but we hear that some workmen who desired it, have been furnished with orders on the Paymaster, or certificates of their dues, which of course can be readily discounted at the banks, or on the street for a small premium.

The U. S. steamer Sebrgo sailed from Portsmouth Navy Yard on Sunday, special orders having been received on Saturday night.

We are glad to hear that the Eastern Railroad is preparing to build a new depot in Portsmouth in place of the tumble-down old barracks which have so long disgraced this end of the line.

lead for the Baltimore nomination instead of third in the race. "Regularly" on election day in a leader and shaper of sentiment does not atone for strenuous "irregularity" before nomination day. He cannot repair during the campaign the injury he has done before the campaign opened. Mr. Roosevelt certainly, and Mr. Bryan possibly are making their campaign records now.—Washington Star.

## Why Not All of Them?

They say that when Senator Glaph, a member of the Senate naval committee, visited Portsmouth the other day to make a political speech and was taken over to see the navy yard there, he was immensely surprised at finding such a magnificently endowed station. That would indicate that he had not visited the place before. How about others?

Why does not every member of the congressional naval committees make a tour of inspection of yards that Secretary Meyer insists ought to be abandoned? They have no right even to consider a bill for the purpose without inspection of the stations under fire.—Boston Post.

## Wentworth Ice House Destroyed by Fire

Continued from First Page.

The Wentworth property, reported to Chief Randall that he was at the ice house on Saturday afternoon and then everything was all right. He locked up before he left and among other things left a small ladder in the loft. On his arrival at the fire Sunday afternoon and he was among the first, he found the ladder down on the ground, showing that somebody had been in the building and had either set the fire maliciously or had been smoking and got it by accident.

The loss to the house will be \$2,700 and at least half as much more on the ice.

# INDIANAPOLIS POLICE EXAMINE NICHOLS

## Lieut. Kenney Here and Gets Written Statement From Nichols--Con- vinced He Was Faking.

Lieut. Kenney of the Indianapolis police, arrived here on Saturday afternoon, and with Deputy Hurley of the local police had a long talk with Seth T. Nichols, who faked the confession of the murder of Dr. Helene Knabe of Indianapolis.

Nichols admitted that he faked the story and went over the case with Lieut. Kenney and stated that he was on the U. S. S. Dixie the date of the murder. He was put through a rigid cross examination and at the conclusion Lieut. Kenney, who was very familiar with the case, was confident that Nichols was just a fake. He, however, got a written statement from him, and later stated that they would not let the matter drop until they had proved conclusively

that Nichols could not have possibly been connected with the case. Lieut. Kenney remained here until Sunday forenoon when he left for his home. He said that Nichols' alleged confession had created a great interest in Indianapolis, and at first it was hoped that he would clear the case up, but his story did not ring true, and they were not surprised to hear that he was faking.

# USUALLY ONE DOSE ENDS INDIGESTION

Dyspepsia, Heartburn, Gas and all  
Stomach Distress Vanishes

If your meals don't fit comfortably, or you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas, which sours your entire meal--interferes with digestion and causes so many sufferers of Dyspepsia, Sick Headache, Bloating, Constipation, Griping, etc. Your case is no different--you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapiesin will cost fifty cents at any Pharmacy here, and will convince any stomach sufferer five minutes after taking a single dose that Fermentation and Sour Stomach is causing the misery of Indigestion.

No matter if you call your trouble Catarrh of the Stomach, Nervousness or Gastritis, or by any other name--always remember that a certain cure is waiting at any drug store the moment you decide to begin its use.

Pape's Diapiesin will regulate any out-of-order Stomach within five minutes, and digest promptly without any fuss or discomfort, at or any kind of food you eat.

### EASTER AT ST. JOHN'S

Easter was observed with the usual impressiveness at St. John's church and large congregations attended the services.

Adornings of Easter lilies, potted palms, ferns and rubber plant beautified the chancel. Potted flowering geraniums banked a table in front of the reading desk.

The Rev. Harold M. Folsom preached an appropriate and beautiful sermon from the text, "If the Spirit of Him That Raised Up Jesus from the dead dwell in you, he that raised up Christ from the dead shall also quicken your mortal bodies by his spirit that dwelleth in you"--Romans VIII-11. A large number received Holy Communion at this service.

The musical program was in keeping for the day and the quartet was assisted by Mr. John Mitchell. "Hosanna" by Gramer was rendered by Mr. Mitchell as the offertory solo. Mr. Robert Ellery, the talented young violinist assisted the organist Mrs. Hill.

The children of the Sunday school had their Easter festival in the church at the conclusion of the morning service. The pastor administered the rite of baptism and the sermon included an Easter address by the Rev. Mr. Folsom and the singing of Easter carols by the children. Each child was presented with a flowering plant.

Services was held in the church at 7:30 p. m. with sermon by the pastor and special music.

THREE PLEASING ACTS.  
Good Vaudeville and Picture Program at Music Hall.

For the first three days of the week the vaudeville at Music Hall consists of three popular acts, that were well received at Monday afternoon performance.

J. P. Wild, gave an illustrated travel talk on Ireland that proved most interesting. Mr. Wild has traveled all over Ireland and has obtained some magnificent views of that country with which he illustrates his talk. One picture is that St. Finbars' castle, wherein lies the body of Elizabeth Aldworth, the only woman ever initiated into the Masonry. Other pictures of great interest are those showing the ancestral residence of our late President McKinley, both interior and exterior. All these pictures were taken by Mr. Wild, during his travels.

Robinson and White are polio comedians who entertainers who entertain with singing, dancing and music.

Warren, Hanscom and Curtis present a new act consisting of a rag-time harmony, cartooning and dancing specialties. They have been playing the best houses with success and come here from the Colonial Theatre at Lawrence.

## You wash dishes about two hours every day. That's one hour wasted!

Dishes get dirty, greasy and sticky and soap will not clean them. Soapy dish water merely cleans the surface; it doesn't dig into the corners and drive out the decayed food particles.

Gold Dust is the sanitary dish washer. It not only cleans the surface, but digs deep after hidden particles of dirt and kills the germs of decayed food which ordinary dish-water overlooks. Gold Dust sterilizes as well as cleanses.

Besides doing the work better than soap or any other cleanser can, Gold Dust will save just half the time you spend in washing dishes.

Gold Dust is sold in 5c size and large packages. The large package means greater economy.

## ITEMS OF INTEREST TO EMPLOYEES AT THE NAVY YARD

### Changes Among Officers.

Ensign H. B. Cecil, from Idaho to Atlantic station.  
Chief Machinist F. F. Ingram to Maryland.

Machinist W. H. Lenz to Panther. W. M. Smith has been appointed a paymaster's clerk, duty receiving ship, Philadelphia.

### To Marry at Washington.

Ensign William D. Chandler, Jr., son of Mr. and Mrs. William Dwight Chandler and grandson of William E. Chandler of Concord, former secretary of navy and Miss Amy Richardson of Washington, will be united in marriage at Washington on April 24.

### Favor the Bill.

The Senate committee on naval affairs has favorably reported the bill to provide that petty officers, non-commissioned officers, and enlisted men of the United States Navy and Marine Corps, on the retired list, who had creditable civil-war service shall receive the rank or rating and the pay of the next higher enlisted grade. This bill is aimed merely to give to these people what all the other officers of the Army and Navy receive because of creditable civil-war service.

The passage is recommended by the navy department.

### Will Bring Barges Here.

The navy department has directed that the Vulcan proceed to the editing station, Frenchman's Bay, Me., and bring the several coal barges and cutters now in use there to the Portsmouth yard. This is further evidence that the government intends to close this coaling place as was

recommended by Secretary Meyer some time ago.

### Big Motor Boat Sinks.

The motor boat Norah H., owned by James Hennessey used in towing the yard workmen to and from the yard, sprang a leak while tied up at the float near the chain shed dock this forenoon and sank. An attempt will be made to float the boat tomorrow. The accident will not result in much damage to the craft.

### Six from the South.

A detachment of six marines guard from Charleston, S. C., arrived on Sunday for the yard barracks.

### New Uniforms for Marines.

One hundred and twenty five uniforms of "forestry" clothes has been issued for the marine guard at Philadelphia. Mare Island, Norfolk and New York. Caps and hats of same material have also been issued. This is the result of a recommendation of officers selected to pick out a new uniform.

### The Insiders on the Inside.

### MEETING PLACE CHANGED.

Franklin, N. H., April 7.—Gen. Dana F. Fellows of the New Hampshire brigade received word today from the headquarters of the Union Bank, Knights of Pythias at St. Paul, that the Council of Supreme Lodge officers had changed the meeting place of the Supreme Lodge, N. H., from Fort Worth, Texas, to Denver, and because of the shortness of time and other considerations it has been decided that a National encampment of the U. R. K. of P. this year is out of the question.

The change from Fort Worth was made because of an epidemic of spinal meningitis and allied excessive rates.

The date of the meeting in Denver is Aug. 6 to 10.

## FIRE BREAKS OUT AGAIN

Fire broke out afresh at the Wentworth ice house on Wentworth road this morning and at 10:40 o'clock in alarm was sounded from Box 8. Chief Engineer Randall ordered Col. Sise Engine Company to the scene and the firemen had quite a fight to keep the fire from spreading as a high wind prevailed at the time. It is stated that what remained of the ice house yesterday was destroyed by this morning's fire. The origin of the fire is a mystery, but it is believed to have been set.

### CHILDRENS CHOIR DID WELL.

Excellent Musical Service at the Immaculate Conception.

Not since the organization of the Children's choir at the Church of the Immaculate Conception was there such excellent music as was rendered by the young voices on Easter Sunday. The choir was made up of one hundred of the school children and the program given, showed the result of much training on the part of their organist and director.

The entire musical service was highly praised by the large congregation which attended the mass at 8:30 a. m.

The solo, duet and quartet work of Frank Hogan, Emmet O'Leary, P. Fullan and A. Bow was really a musical treat, in connection with festival day service.

## RAILROAD NOTES

An addition of a dozen or more men will be made to the square section crew under Foreman Colson at this city for the large amount of track work on the Boston and Maine.

Prominent railway officials are of the opinion that the work of constructing the proposed electric railroad up Mount Washington, will not be undertaken the present season, but will be held until the financial condition of the road shows improvement.

A Boston and Maine passenger engine in Portland yard on Sunday night ran into the caboose of a freight train. The caboose took fire from the stove and was completely destroyed and other cars on the freight were smashed.

James Shannahan, day yard clerk at the Dover-Boston and Maine railroad station, had the thumb of his right hand badly crushed yesterday afternoon, while attending to his duties near the freight house.

The Boston and Maine management have prohibited loud whistling by locomotives at certain stations on the Swampscott branch.

The spare section crew left here today for Biddeford where they will do considerable track work.
